

# Episode Casino Job

- Florida /

No recording, we were in-person!

Hawthorne's scout shows us the fast path out of the casino. There's always a pair of collectors on an                minute loop. There's an elderly half orc groundskeeper. He walks it with a bucket and picks up rocks ot bring back. Our scout flags this because it;s weird. But the collectors making the loop are very consistent.

We decide to check in. Anastasia, the assistant, meets us. She shows us around, leads us to our room. WE ge threatened by management. We fight back with words. They killed our dude. We play it cool.

we take a tour around the casino at low tide. We meet mr. severe pitboss.

We have wand of limited magic detection

Barking stones

Vine that will grow up the building

two coin-keys

locklinks.

Potion of aqueous form

Potion of gaseous form

Scroll of wrist pocket.

---

We spend a few days scouting. We pay for the blueprints.

Eldrin is a spider outside in the no-go zone, he scouts it out. The rocks the guy was picking up aren't consistent and don't appear magical.

Moloch bedroom on second floor, Titus Prolix.

Weird elevator.

Eldrin see's young man, ragged robes, big spell book. Casting Alarm on all the windows,            hour duration.

- Ceramic ball, softball sized, with wick: bomb (From the ironmongers)
- Ancient headress of antlers and bones (Deepwood lodge, the wiccan mercenary company)
- Shining polished horsehair helmet (Silver Suns helmet)
- Torn up pieces of a book - our Chronicle. Destroyed in the battle with the faceless wyrms
- Chainsickle (matte black, only used by penumbra, mercenary assassins guild)

Rabbit - overworked apprentice. Does Alarm on the doors. Lorna, collectors. A few weeks ago, spy tried to sneak through windows. Both legs already broken. It's where Opal lives.

Trig tells Rabbit he'd be happy to give him a spell in his book.

"The Judge" is coming. He's from The Bloodskulls. Stay away from him.

Elfrin eats all the refuse — he lives in the lake. He eats the effluent.

---

The plan: Danny Druid takes Grim Spectre and Trigger into the portable hole. Rock and Bo play.

Tournament starts. Round            vs the Judge. Lost            , push a few. Judge: seems like not an aggressive player, tight.

The pit boss catches a cheater, they get dragged downstairs to Opal the basilisk.

Trigger does magical tinkering on a coin, get's caught by Nikolai, is kicked out of the casino.

Bo goes up against Sir Percival of the silver suns at the table. Push, but we learn he talks his hand, seemingly not bluffing.

Holly Honeyholt. Biggest land owner in novigrad. She's not much of a bluffer.

---

We start the heist - Danny Druid invisible, as an octopus, climbs up the pipe, with the portable hole carrying Trigger Grim and Spectre Bo plays. Rok distracts Prolix. He thinks the Judge will win. Jester Green the halfling has most of the chips.

Bo plays against Osborne and knocks him out.

Rok keeps chatting up Prolix.

Meanwhile in the basement, the crew is scooping treasure into the hole. Sheona is short stacked. Bo knocks her out of the tournament.

Mission accomplished. Danny Druid heads off with the scouts. (flashback - we set up the drop off) Our room has been ransacked? Trigger stays back to investigate and gets stabbed by Loveless, the assassin, and a compatriot. The apprentice finds Trigger dying, and intervenes (set the time flashback style). Spectre and Grim complain to the guards. Guards don't care.

Two more rounds. Bo plays against Jester Greenhill... Push.

RURIK Frostbeard from Mucover. We push. Spectre and Grim go talk to Titus, he seems mildly perturbed to discover we've been ransacked.

Spectre goes and tells Titus we got murdered. and Trigger stay in the room, Valient is freaked out that Loveless (who's a bloodskull) came after us. Rok demands his sword back ... he Spectre and Valiant wait.

Meanwhile Eldrin is scooting out with Hawthorne and the scouts. There's a giant hyena on the move too. Hyena is probably part of the bloodskulls.

Final table, Bo gets knocked out at . Kazimir wins.

We check in with Luka, he owes us a favor.

K was the total take. We take gold. to Valient.

Sidebar: we go kill the Statue Garden Lacuna ... big fight, Trigger and Grim both go down. But we get our hopes back, and we acquire a new follower: Tos the Hobgoblin King!
