Specialists in siege warfare, the Ironmongers are rarely utilized to their full capacity. In peacetime, they are often hired to consult or build defenses and earthworks, build siege equipment, or train soldiers. As a result, they are often found in small groups scattered across the Kingdoms. Only when the Kingdoms escalate to full-scale war do they become active on the battlefield, a terrifying prospect. The Ironmongers are mostly made up of dwarves, gnomes, and goblinkin, and are universally known as good-natured maniacs, the best mercenaries to party with.

Base: Kronstadt Fortress.

Notable People: Commander Bonny Forgebreaker, a mountain dwarf woman. Serj, a bugbear, is the head sapper and lieutenant.
