A new, up-and-coming company that was founded around the same time as Genesis Gambit. Similar in size, strength, and reputation to your company, and a frequent competitor for jobs. Their brand is all about corpses, death, graves, etc., but they're quite normal and pleasant people.

Base: Raventree, a village famous for its burial mounds and a sizable presence of the Cult of the Raven Queen.

Notable People: Commander Nadia Zhukov. Ryger, her lieutenant and lover, is one of the best archers in the Kingdoms. Zhukov and Ryger are friends to Valiant and Genesis Gambit, but competition has begun to weaken those bonds.
