A large, important town on the outskirts of Kazan’s traditional zone of control. Raventree is home to The Barrowmen, the mercenary company that is friendly to Genesis Gambit. Raventree is also famous for its miles and miles of barrow hills, cemeteries, and mausoleums, and the very large presence of the Cult of the Raven Queen. While Raventree is an important town, it is being eclipsed by places like Novigrad and Crossbones.
