Objectively the best mercenaries in the Broken Kingdoms today. Rose to prominence following their refusal to fight for the Faceless Wyrms, they were the only whole and unbroken company after the Wyrmrage. Not the largest, but effective, professional, ruthless - and very expensive.

Base: Throne of Sorrow. Once an evil temple built by the orc invaders, locals are too afraid to venture close to it.

Notable People: Vorislav the Butcher, a half-orc, also called the Bloody Knight. One of the most feared warriors in the Kingdoms. Glitterbrand, a deep gnome inventor that rumor says was exiled to the surface due to insanity.
